2017 B.F. Skinner Foundation Research Award
California Association for Behavior Analysis

The B.F. Skinner Foundation Research Award was created to support and encourage research efforts in behavior analysis among graduate students in California. The award is presented to a CalABA member who has conducted original research in behavior analysis while attending a graduate-level program in California. Applicants do not have to be in a behavior analysis graduate program, but the research must be behavior analytic in nature.

To apply: Fill out the application below and send it along with all of the requested materials to **conference@calaba.org**

Please visit our website for specific materials and requirements to be sent in with your application: http://bit.ly/2bhHzUw
